

# Engineering Notebook

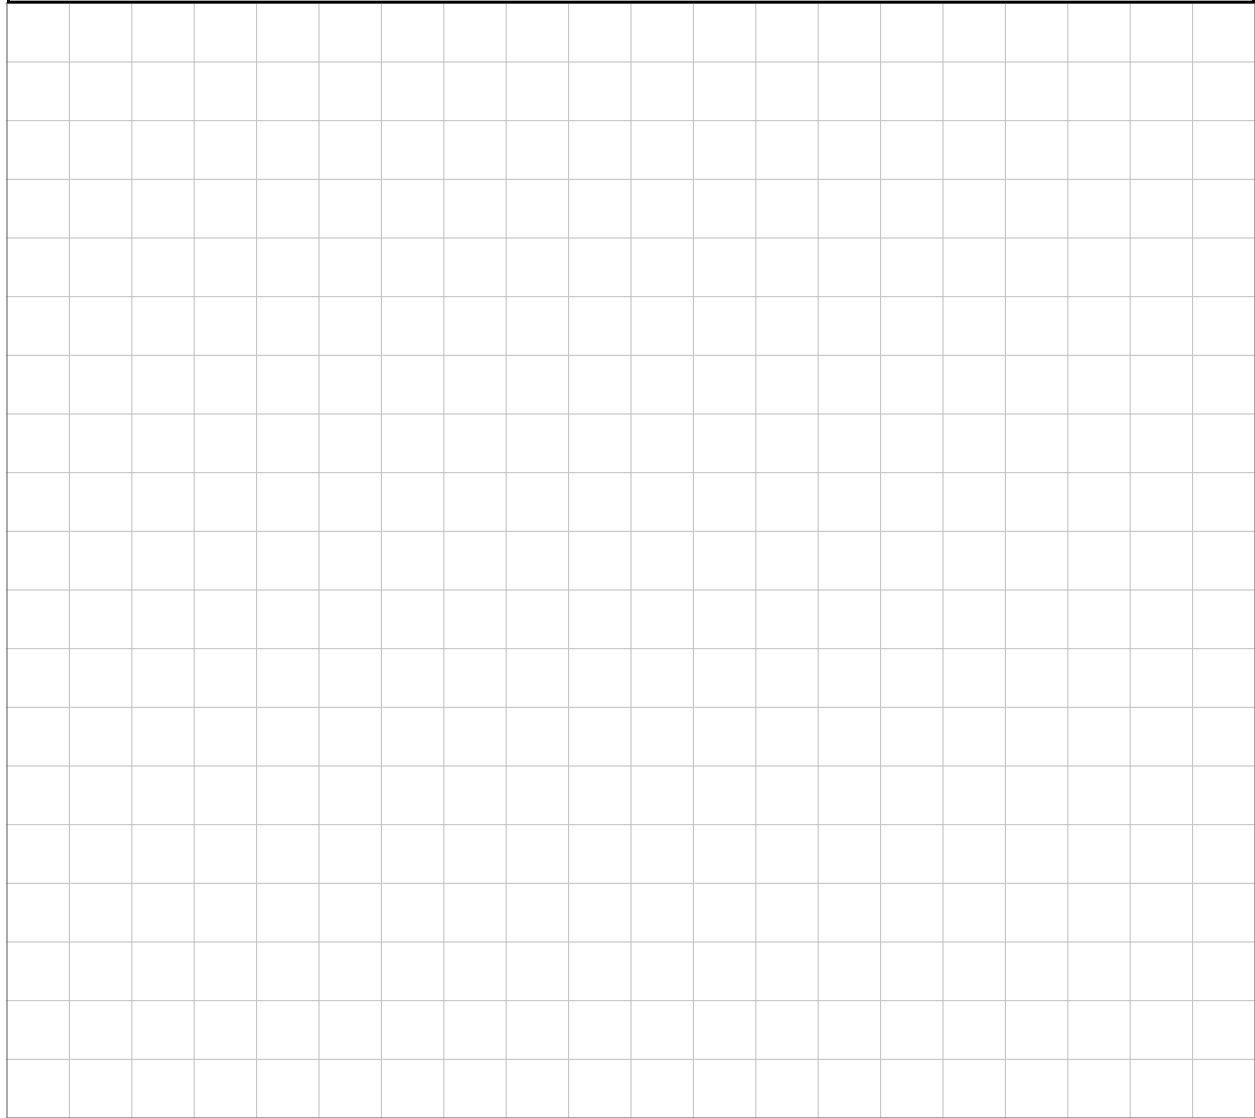

<b>Engineer(s)</b>	<b>DATE</b>
--------------------	-------------

**Project Title**

**Engineering Goal**

**Design Constraints (Limitations)**

**Draw your Best Ideas for Solving this Engineering Challenge  
Label the parts of your invention and the materials being used.**

A large grid area for drawing and labeling ideas, consisting of 20 columns and 20 rows of small squares.

**How will you test your ideas?**

**Draw the Solutions that worked Best at meeting the Engineering Goal for this project**

A large grid for drawing solutions, consisting of 20 columns and 20 rows of small squares.

**What did you discover after testing your ideas?  
What did you change to make it work better?**
